

# MULTI-FAMILY

## CEILING LIGHT

Ceiling lights offer a perfect blend of energy efficiency and versatility, featuring a sleek, low-profile design and customizable color temperature options. Choose between a warm, inviting ambiance or bright, daylight-like illumination to suit your space. Ideal for various settings, including offices, hospitals, retail stores, schools, lobbies, commercial buildings, and work areas.

## CAN'S & DOWNLIGHTS

High-performance and versatile downlights are ideal for a wide range of applications, from residential to commercial spaces. Designed to seamlessly integrate into any ceiling. Our downlight collection features advanced thermal management and exceptional light efficiency. Providing superior light distribution with minimal glare, delivering premium architectural grade illumination in a sleek, compact, and functional design.

## AREA LIGHTS

Enhance your outdoor spaces with our cutting-edge area lights. Designed for both style and functionality, these modern fixtures combine sleek aesthetics with advanced illumination technology to elevate any environment. Our area lights seamlessly adapt to your specific needs. Ideal for parking lots, walkways, and urban settings, area lights not only improve visibility and security but also add a touch of sophistication to any landscape.

## POST TOPS

Illuminate your exterior spaces with our area lights. Featuring sleek, modern designs and advanced lighting technology, these fixtures transform outdoor environments into sophisticated, well-lit spaces. Tailored to your needs from materials and finishes to design and light distribution. Our area lights are perfect for parking lots, pathways, and urban landscapes, enhancing security while creating an inviting ambiance.

## BOLLARDS

Our Bollard delivers crisp, uniform light, eliminating shadows and scalloping in all pathway applications. Ideal for entryways, parks, schools, apartment complexes, municipal buildings, hospitals, shopping malls, and all exterior commercial and residential buildings.
