

# OFFICE LIGHTING

## PENDANT

We offer a versatile selection of pendant luminaires from circular and linear designs to sculptural forms by Vega™. Perfect for lobbies, reception areas, and any space where style meets function, our pendant lights elevate both the ambiance and the experience. Whether you're aiming for a modern, minimalist look or something bold and artistic, our pendant offerings play a key role in helping you achieve your desired aesthetic.

## WALL MOUNT

Wall mounted luminaires are an ideal choice for enhancing ambient lighting throughout your office. They provide effective illumination for surrounding areas such as stairways, hallways, and common spaces helping to create a welcoming and visually balanced atmosphere. Perfect for both new construction and renovation projects, wall-mounted fixtures not only add functional lighting but also contribute to the overall aesthetic, enhancing the architectural character of your space.

## PANEL

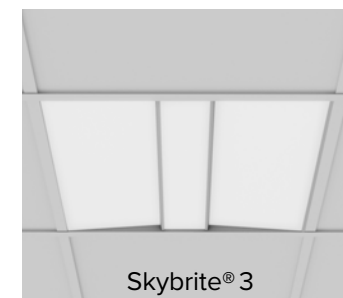

Our panel lights deliver a blend of superior illumination and timeless modern style. Designed to integrate seamlessly into grid tile ceilings, they provide a clean, streamlined look that enhances any space. Alongside energy-efficient performance, these fixtures help reduce operational costs while maintaining exceptional lighting quality. Ideal for conference rooms, offices, and any environment where high-performance functionality and refined aesthetics are essential.

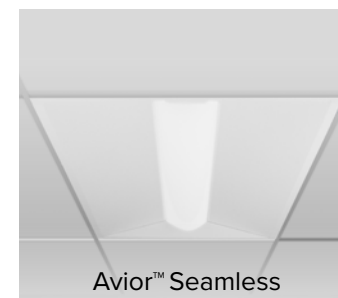

## TROFFER

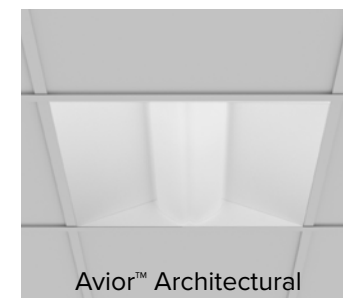

Troffers offer an efficient lighting solution that combines performance with a clean, modern look. Designed to sit flush within the ceiling grid, they help create a bright, open atmosphere while minimizing distractions and maintaining a polished, professional setting. With a variety of adjustable options, our troffer lineup is built to meet the evolving lighting demands of commercial and office spaces delivering both reliable functionality and sleek design.

## RECESSED

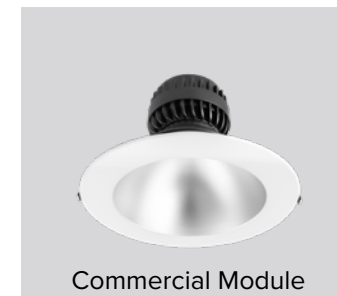

One of the key advantages of recessed lighting is its ability to create a clean, spacious look that elevates the feel of any room. By being integrated into the ceiling, downlights minimize visual clutter while providing even, effective illumination. Our architectural downlight offerings cover all your needs from modern, selectable downlights to sleek linear recessed options, ensuring both functionality and design flexibility for any office environment.

## SURFACE

Surface mount luminaires are an excellent choice for server rooms, providing consistent, uniform lighting that reduces shadows essential for clear visibility when working with racks, cables, and equipment. Their sleek, low-profile design fits well in tight or structured spaces, helping maintain a clean and organized environment.
