RETAIL LIGHTING

DESIGNER TRACK LIGHTING

Elevate your space by seamlessly blending style and functionality. Perfect for retail, galleries, offices, homes, and hospitality, it enhances any setting with sophistication. Featuring adjustable fixtures, it allows you to direct light precisely where needed, adapting effortlessly to layout changes. Ideal for compact spaces, track lighting delivers a perfect mix of focused and ambient illumination all within one elegant system.

CELIO™

Celio™ provides exceptional comfort with its single-sheet acrylic matte diffusion cover and uniform illumination thanks to innovative edge lighting. It offers versatile lighting solutions with five size options, variable lumen outputs, and direct or direct/indirect lighting configurations. This luminaire seamlessly integrates into various spaces, including multi-purpose rooms, open offices, hospitality and retail establishments.

ARCHITECTURAL DOWNLIGHT

M2O's high-performance and versatile downlights are ideal for a wide range of applications, from residential to commercial spaces. Designed to seamlessly integrate into any ceiling. The Architectural Downlight Series features advanced thermal management and exceptional light efficiency. Our downlights provide superior light distribution with minimal glare, delivering premium architectural grade illumination in a sleek, compact, and functional design.

SLIM FRAME LIGHT

The Slim Frame Light is a modern, stylish solution designed to elevate any interior. With its ultra-thin frame, it blends seamlessly into ceilings, providing a sleek, minimalist appearance. Its clean, geometric design complements both contemporary and traditional decor styles. Available in two versatile sizes, it's perfect for offices, retail spaces, or any environment that demands high-end functionality and aesthetics.

VEGA™

The Vega™ Linear Series offers unmatched versatility allowing for everything from minimalist layouts to intricate configurations. Designed for adaptability, Offered in pendant, wall mount, surface, and recessed in Mud-in or T-Bar ceilings options. Its ability to transform into different styles makes it ideal for crafting unique interior designs, ensuring the perfect aesthetic for any space.
